Step-by-step MSME registration for your dental clinic

Udyam Registration – for an individual dentist running an existing clinic in India

The registration is done online on the Government of India's Udyam Registration portal. For a dentist who owns the clinic alone, choose **Proprietary** as the organisation type and **Services** as the major activity. The code for a dental clinic is **86202 — Dental practice activities**.

Official Udyam Registration
Ministry of Micro, Small and Medium Enterprises, Government of India
New Registration Form: udyamregistration.gov.in/UdyamRegistration.aspx
Registration is **free**, online and paperless. You do not upload any documents.

What the labels in this guide mean

Required	You must fill it.
Must choose	A question with options (e.g. Yes / No). You must pick one.
Optional	Fill only if it applies to you; otherwise leave it empty.
Auto-filled	The portal fills it from your Aadhaar / PAN / income tax records.

Note: the official form does not put a * mark on its fields. These labels are taken from the form's screens and official guidance; the portal itself shows an error if something it needs is missing.

Before you start

Keep these ready:

- Aadhaar and PAN of the clinic owner. **The Aadhaar must be linked to a mobile number** — the OTP comes on that number.
- Clinic name and full address.
- Bank account number, bank name and IFSC code.
- The date the clinic was registered / opened.
- Number of staff, value of clinic machines and yearly income (your CA can give these).

Nothing is uploaded, but keep these handy in case proof is asked for later: Aadhaar card, PAN card, clinic registration certificate, bank passbook or cheque, and latest ITR / accounts.

Do not share your Aadhaar, PAN, bank details or OTP with anyone outside the official portal.

Complete the form in this order

Step 1 — Start a new registration

On the portal, click **"For New Entrepreneurs who are not Registered yet as MSME."** Use this only if the clinic has never had a Udyam number. Do not register the same clinic twice.

Step 2 — Verify Aadhaar

Field	Required?	What to fill
Aadhaar Number	Required	The clinic owner's 12-digit Aadhaar.
Name of Entrepreneur	Required	Your name exactly as printed on Aadhaar.
Consent tick box	Required	Tick it.
OTP	Required	Click “Validate & Generate OTP”, then type the OTP sent to your Aadhaar-linked mobile.

Step 3 — Verify PAN

Field	Required?	What to fill
Type of Organisation	Required	**Proprietary** (you own the clinic alone).
PAN	Required	Your own PAN. A separate PAN for the clinic is not needed.
Name of PAN holder	Required	Your name as on the PAN card.
Date of birth as per PAN	Required	DD/MM/YYYY, as on the PAN card.
Consent tick box	Required	Tick it, then click **“PAN Validate”**.
Have you filed the ITR for the previous year?	Must choose	ITR = Income Tax Return. Choose **Yes** or **No** truthfully. If Yes, the portal can fill your income figures by itself later.
Do you have GSTIN?	Must choose	Options: Yes / No / Exempted. Choose **Exempted** — dental treatment is exempt from GST, so a clinic that only treats patients does not need a GST number. (If you choose “No”, the portal checks it with the GST department.)

Step 4 — Personal and clinic details

Field	Required?	What to fill
Mobile Number	Required	A mobile number you use.
Email	Required	An email you check. The certificate and messages come here.
Social Category	Must choose	General / SC / ST / OBC — the owner's own category.
Gender	Must choose	Male / Female / Others.
Specially Abled (Divyang)	Must choose	Yes / No.
Name of Enterprise	Auto-filled Required	Filled from PAN, but you can change it. Write your **clinic's name**.

Step 5 — Clinic address

The form asks the address twice: once as the **clinic ("Plant/Unit")** and once as the **official address**. For a single clinic, both are the same address.

Field	Required?	What to fill
Plant/Unit Name	Required	Your clinic's name, then click **"Add Unit"**.
PIN, State, District	Required	Of the clinic.
Flat/Door/Block No., Name of Premises/Building, Village/Town, Block, Road/Street/Lane, City	Fill what applies	Fill every part your address has. Leave a box empty only if your address does not have it (e.g. no "Block").
"Add Plant" button	Required	Click it after filling the clinic address.
Official Address of Enterprise	Required	Same boxes again — enter the same clinic address. PIN, State and District are required here too.

Step 6 — Old registration and clinic start date

Here the form asks two things: **did you register as MSME before**, and **when did your clinic start**.

Field	Required?	What it means and what to fill
Previous EM-II/UAM Registration Number, if any	Must choose	"EM-II" and "UAM" (Udyog Aadhaar) are the **old** MSME registrations used before Udyam. Options: N/A / EM-II / Previous UAM. • Never registered before → choose **N/A** (nothing more to fill). • Have an old Udyog Aadhaar number → choose "Previous UAM" and type that number.
Date of Incorporation / registration	Required	The date your clinic was **officially registered**, e.g. the date on its registration certificate from the local office. • No such certificate → use the date the clinic opened. • Do not make up a date.
Whether production/business commenced	Must choose	"Has your clinic started?" → **Yes** (it is already running).
Date of commencement	Required	Needed because you chose Yes. The date your clinic **first started seeing patients**.

Example: Dr. Mehta's clinic was registered with the local office on 01/06/2018 and opened for patients on 15/06/2018. She never had Udyog Aadhaar.
Previous EM-II/UAM → **N/A** · Date of registration → **01/06/2018** · Business commenced → **Yes** · Date of commencement → **15/06/2018**

Step 7 — Bank details

Field	Required?	What to fill
Bank Name	Required	The bank of the account the clinic uses.
IFS Code	Required	The 11-character IFSC (printed on the cheque book / passbook).
Bank Account Number	Required	Check it twice before submitting.

Step 8 — What the clinic does (NIC code)

Field	Required?	What to fill
Major Activity of Unit	Must choose	**Services**.
NIC Code (at least one)	Required	Choose in this order, then click **"Add Activity"**: NIC 2 digit → **86** Human health activities NIC 4 digit → **8620** Medical and dental practice activities NIC 5 digit → **86202** Dental practice activities Or type "86202" in the "Search NIC Code" box.
More NIC codes	Optional	Only if the clinic also does a different kind of business. For normal dental treatment, 86202 alone is enough.

Step 9 — Staff, equipment value and income

Here the form asks: **how many people work for you**, **what your clinic machines are worth**, and **how much money the clinic receives in a year**.

Field	Required?	What it means and what to fill
Number of persons employed (Male / Female / Others)	Required	People the clinic **pays a salary to** (assistant, receptionist, cleaner). Enter 0 for a group with nobody. The total is calculated by itself. *Example:* 2 female assistants + 1 male receptionist → Female **2**, Male **1**, Others **0**.
Child labour declaration tick box	Required	Tick it — it confirms no child works in your clinic.
Investment: Written Down Value (WDV)	Auto-filled or Required	The value of your **clinic machines** (dental chairs, X-ray, autoclave, compressor etc.) in your accounts after yearly wear-and-tear — **not** the price you first paid. Do **not** count the building, land or furniture. • Filed ITR-3 → filled automatically. • Filed ITR-4, or no ITR → **you must type it**. Ask your CA for this number.

Exclusion of cost of Pollution Control, R&D and Industrial Safety Devices	Optional	For special factory equipment. A dental clinic normally has none → leave **0**.
Net Investment	Auto-filled	Calculated by the portal.
Total Turnover	Auto-filled or Required	The **total money received from patients in a year**, before taking out expenses. *Example:* received ₹30 lakh, spent ₹18 lakh on salaries, rent and material → turnover is **₹30 lakh** (not ₹12 lakh). • Filed ITR → filled automatically. No ITR → you must type it.
Export Turnover / Net Turnover	Auto-filled	Money from abroad → 0 for a clinic. Net turnover is calculated by the portal.

Which category will the clinic get? You do not choose it; the portal decides from the machine value and turnover. With machines worth up to ₹2.5 crore **and** turnover up to ₹10 crore, the clinic is a **Micro** enterprise (limits from 1 April 2025). Most clinics fall here.
Always give the real numbers from your accounts; do not change them to get a category.

Step 10 — Last questions and submit

Each question below needs a Yes or No. None of them changes your registration; they only ask if you want extra services.

Field	Required?	What it means and what to fill
Interested in GeM (Government e-Marketplace)?	Must choose	The government's **online shop**, where government offices buy goods and services. → For a normal clinic: **No**.
Interested in TReDS?	Must choose	Helps businesses that supply big companies on credit **get their bills paid early**. Patients pay you directly. → **No**.
Interested in NCS (National Career Service) portal?	Must choose	The government's **job portal**, where you can post jobs to hire staff. → **Yes** if you want help hiring, otherwise **No**.
Interested in NSIC B2B portal?	Must choose	An online market where businesses sell to other businesses. → For a normal clinic: **No**.
Interested in a free .IN domain and business email?	Must choose	An offer of a free website address (.in) and business email. → **Yes** if you want a clinic website/email, otherwise **No**.
District Industries Centre (DIC)	Required	The government's MSME office in your district. It is often selected automatically from your address; if not, choose the **district where your clinic is**.

Declaration tick box	Required	Tick it — it says the information you gave is true.
Final OTP and verification code	Required	Click **"Submit & Get Final OTP"**, type the OTP from your mobile and the code shown on screen, then submit.

The extra-service questions (GeM, TReDS, NCS, NSIC, .IN domain) are taken from the form's screens; the live form may show a slightly different list.

Step 11 — Get your certificate

- After submitting, a pop-up shows your **Udyam Registration Number**. **Write it down** — you need it to download the certificate.
- The portal checks your details with PAN and income tax records. This can take a few days.
- Then go to the portal → **"Print Udyam Certificate"**, enter the Udyam number, choose OTP on mobile or email, and download the certificate. Keep a copy.
- Registration is free and never needs renewal.

Official portal: udyamregistration.gov.in

Important: Udyam registration is separate from any professional, clinic-establishment, local-authority or biomedical-waste permissions that may apply to your dental clinic.
